### Your Insurance Policy May Afford You Coverage For:

1. **Extra Expense (ALE)** – hotel stay for a short term, Quality rental home for long term, additional food expenses, all additional costs that you incur as a direct result of your fire loss.
2. **Contents-Personal Property** – These items must be inventoried separately with proper value and ages on each item; we will help to maximize your recovery dollars.
3. **Your Home** and garage/shop or **Business** – This portion of the loss is always highly debated due to insurance companies wanting to “repair for less money” rather than replacing what should be “replaced”, for the correct dollar amount.

- Our services get your claim settled fairly and quickly. We document your personal property, file your extra expenses with your insurance company, and most importantly we work with you and your contractor to properly rebuild.
- **DO NOT** sign any contracts with contractors or cash any settlement checks **until** you have called Linder Baker Adjusting to review your Fire Loss policy with you.
- **You wouldn't let the IRS do your taxes; don't let the insurance co undervalue your loss!**

**We take the HEADACHE out of your Fire Claim. Call Linder Baker Adjusting today!**
